

Typographic Illustration

Select a word with no less than 5 letters that would identify or describe your personal experience from the past school year. Any school appropriate word (noun, adjective, or verb) can be used as long as you can establish a connection.

Part 1

In Illustrator, create a solid black and white typographic illustration of this word as if the letters were to have come from their own typeface. No two letters may be alike, even if they are the same letter.

Part 2

Write at least two paragraphs explaining the connection of the word to your school year. Why did you select this word? What is the story behind this word? What is the significance of this word?

Before you begin... Use your sketchbook. Figure out your design before you start working on your laptop!
