

Henrico County Arts Festival Poster modification

Students will be responsible for enhancing one quarter of the HCPS Arts Festival poster using photographic (?) imagery [and color]. Three of the four quarters will have a separate category and will be assigned to individual students. To promote artwork produced by all Henrico county schools, you must **GRAPHICALLY** represent a wide variety of art levels in your imagery, elementary through high school. Your job is to keep the structure of the original poster elements (do not rearrange the typography or box elements) while incorporating photographic elements. It is preferable to use your own imagery (take photos!), however you may use high resolution/quality images from online cleverly disguised. One project from each category will be chosen to represent the poster(s)

Top left quarter- Drawing, painting, 2d art, etc.
