

Design Show

Design - The purpose of this show is to highlight the great student work that is done in Digital Media, Art, and Design.

Unity - It is ideal to display a cohesive body of work, although 21 different individuals are represented.

Variety - Each student should have the ability to show a number of different projects in a small space.

Exceptional – This show should stand apart from other gallery shows that have come before it. How can DMAD 2, 3, and 4 make this display of work special, unique, and remembered?
