

Digital Media, Art, and Design Website Portfolio Project

Create a Weebly website for your work from Digital Media, Art, and Design. Go to <http://mccraystudioart.weebly.com/> to see an example of what this might look like

To begin, go to Weebly.com to create an account for a website that will show your work from Digital Media, Art, and Design 1

Once you start creating your website, you will need to include the following criteria.

3 website pages – **Home, Portfolio, and Sketchbook**

On your **Home page**, create the title for your website.

Write **3 short paragraphs** explaining who you are, what your website is about, and your journey through Digital Media, Art, and Design 1 this year. Consider if you should have your full name on this site as it is a public domain and anyone can access this information. Write about the details concerning your time in the class. Was it easy? Was it difficult? What did you learn?

On your **Portfolio Page** include the information and images listed below. You will need to change your Illustrator images into [RGB] jpeg images to upload them to weebly. If your images are too large weebly may not allow them to be uploaded. If this is the case lower the resolution of the images and try again.

Create the title – **Dada**

Use the Gallery option under “Build” and upload three photographs of the Dada pages you created earlier in the year. You may need to photograph your images to your phone and send them to your

Create the title - **Line/Abstract Name/Lalique Line-imal**

Use the gallery option under “Build” and upload images of your abstract name project and your line-imal project.

Create the title – **Shape/Balance/Peter Max**

Use the gallery option under “Build” and upload an Informal Balance Image, a formal balance image, and your Peter Max project

Create the title – **Unity/Texture/Bearden**

Use the gallery option under “Build” and upload your unity project and your Romare Bearden project.

Create the title - **Value/Form/Photography**

Use the gallery option under “Build” and upload at least three of the value project images to your site.

Create the title – **Game Design**

Use the gallery option under “Build” and upload at least three images of your game design or stills from the game play of your game project.

Create the title – **Perspective**

Use the gallery option under “Build” and upload the image of your perspective project.

On the **Sketchbook** page of your website

Use the gallery option under “Build” and upload at least three images of the work from your sketchbook. Use your phone to photograph images of your work and email them so you can download them on your computer.
