

# Your Graphic Identity

Part 1 – four personal icons

Make a list of 3 hobbies, items, or pastimes that of interest to you. Include art/digital media art and design as your 4<sup>th</sup> item.

In your sketchbook create black and white sketches to visually represent each of your 4 items. You want to find a similar artistic style and visual weight for your elements to create a sense of unity.

These elements will be constructed in solid black and white (No gradients or tones of grey).

No letters may be used.

Articulate the final versions in Illustrator as vector based line art on an 8.5 x 11 document.
