

Advanced Design

Semester Review Project

Create an 11"x17" poster that reflects the first half of your semester in Advanced Design. Your poster must be asymmetrical and show contrast, order, and tension.

You must incorporate the written information from your first semester reflective paragraph into the poster.

The visual elements for your poster must not deviate outside of your first semester projects, but you may make minor modifications to enhance the strength of your design.

Included in your design:

- Multiple letters from your type project

- At least one symbol or trademark from your logo project

- One visual element that references a designer from one of your online studies

- Visual elements from other semester 1 projects

 - Contrast Project

 - Travel Poster

 - Type as Image

 - Typographic landscape

 - Timeline

Try to create a unified design and think about the meaning of what you are communicating.

What is your poster design about?
